

## Editorial

*Henning Hraban Ramm*

Participants of our meeting in Lutten will probably remember the water tower for a long time. The impressive structure hides a cosy interior that gave a home to our information exchange.

Preparing this journal required patience – of authors and proofreaders in the editing process as well as the typesetter’s to find workarounds for weird behaviour of ConT<sub>E</sub>Xt’s mechanisms. But we succeeded.

A big ‘thank you’ to the authors and to my diligent proofreaders and co-editors: Peter and Caren, Jim, Julian, and Riviera!
